Gregory Blackstock (1946 - 2023)

The Incomplete Historical World, Parts I, II, III

Since his first show in 2004, Blackstock enlivened the art world with brilliant drawings and, more recently, prints in very small editions. Switzerland's Collection de l'Art Brut, curated a one-person exhibition for this self-taught artist in 2011. In 2021, filmmaker Drew Christie created an animated short titled, "The Great World of Gregory Blackstock," currently airing nationally on PBS.
